Yes, that would be great if you could send some possible dates – next week, if at all possible.

Thanks,

I think after you receive our comments we will likely need a meeting to discuss and I will need to have HQ on the call. I don't know if you want to try and plan that now so that we have it on the calendar (since summer is ALWAYS difficult for scheduling)? If so I can start looking at dates and send you a couple??? Let me know either way.

Thanks Lindsay. That covers my initial question, which was status on review. My other request is that, to the extent that you can in your comments, can you provide some clarity as to what issues are critical to ultimate approval? That will help us prioritize what we need to do to get the public notice out by September 13.

That covers what I hoped to talk about, so I don't need to talk unless there's anything you'd like to follow up on from last week's meeting.

Thanks,

Aron Borok

Sure. I am still working to get you all the comments by Friday per the request on last week's call.

Subject: Touching base

Hi Lindsay,

I was wondering if you had some time today to touch base with respect to the mercury variance?
